

A Mobile, Acoustic Space Divider, with Whiteboard, Pinboard & optional Integrated Power

SoundTrap Methodology

Activity-Based Working

Activity Based Working provides businesses with the opportunity to rethink how changing their work methodologies can contribute to a more efficient way of achieving their strategic objectives.

Spaces that are flexible and/or designed around various tasks/activities facilitates this new work-style philosophy.

Activity Based Working enables each person to organize their work activities in a productive and enjoyable way that best suits what they need to do, and who they need to do it with..

01

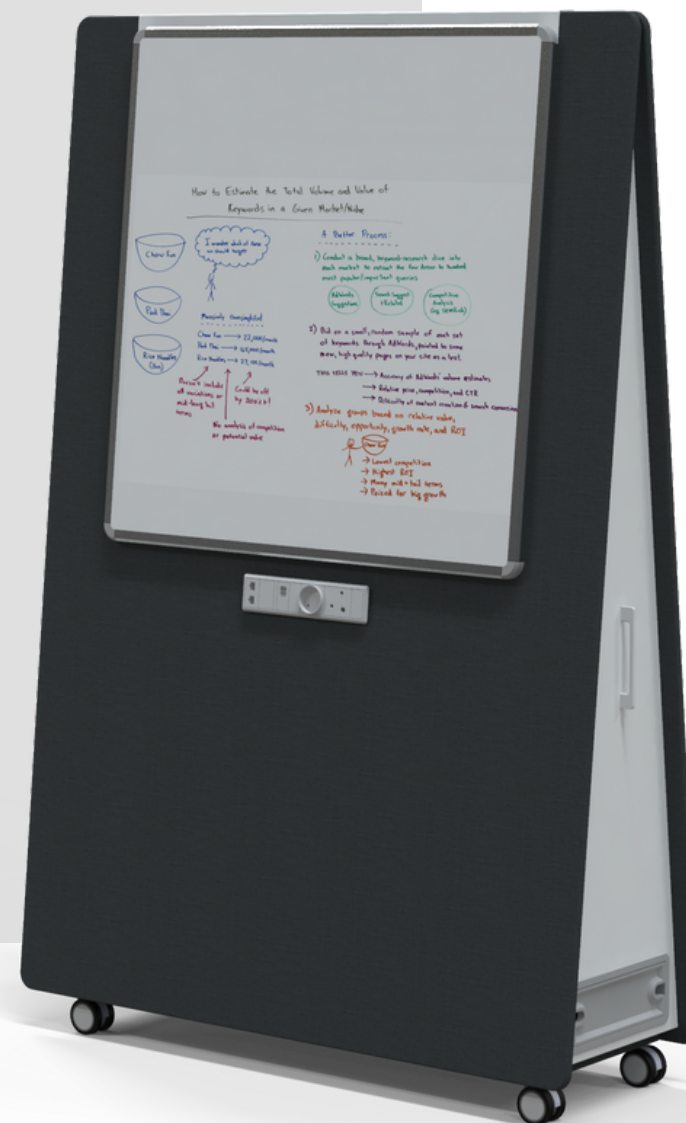

An example of how SoundTrap Mobile Acoustic Dividers can be used in an Activity Based Working environment can be seen below

Available with Power

The SoundTrap Mobile Acoustic Dividers are available both with and without plug sets. The SoundTraps are also available with power cables running through the unit. This is advantageous for situations where SoundTraps are interconnected in series to provide power to individual/multiple units.

The SoundTrap Mobile Acoustic Dividers are also available without plug sets

03

Perfect for collaborative work, by encouraging visual ideation and accommodating different forms of working, from laptops to flow diagrams on a whiteboard.

04

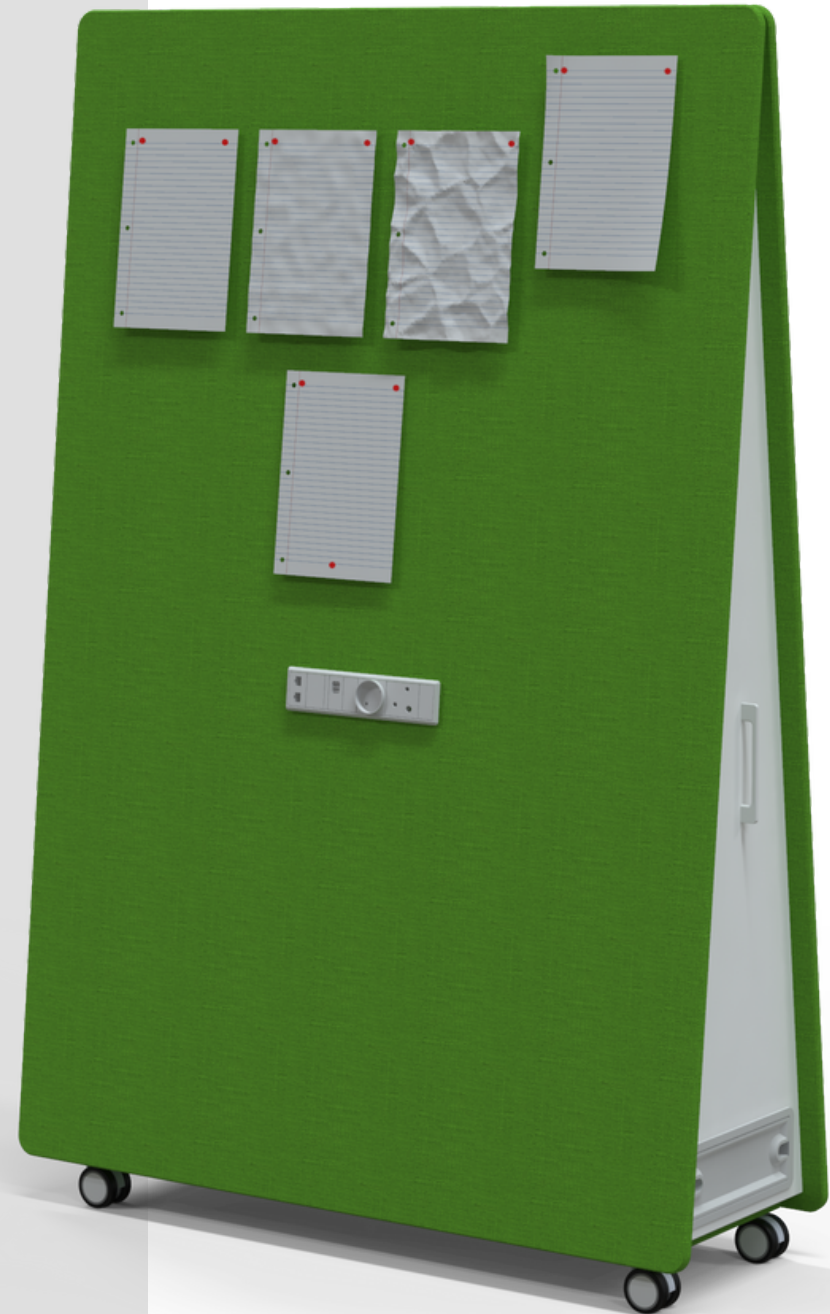

Available with an optional audiovisual conversion,
for presentations or conference calls

05

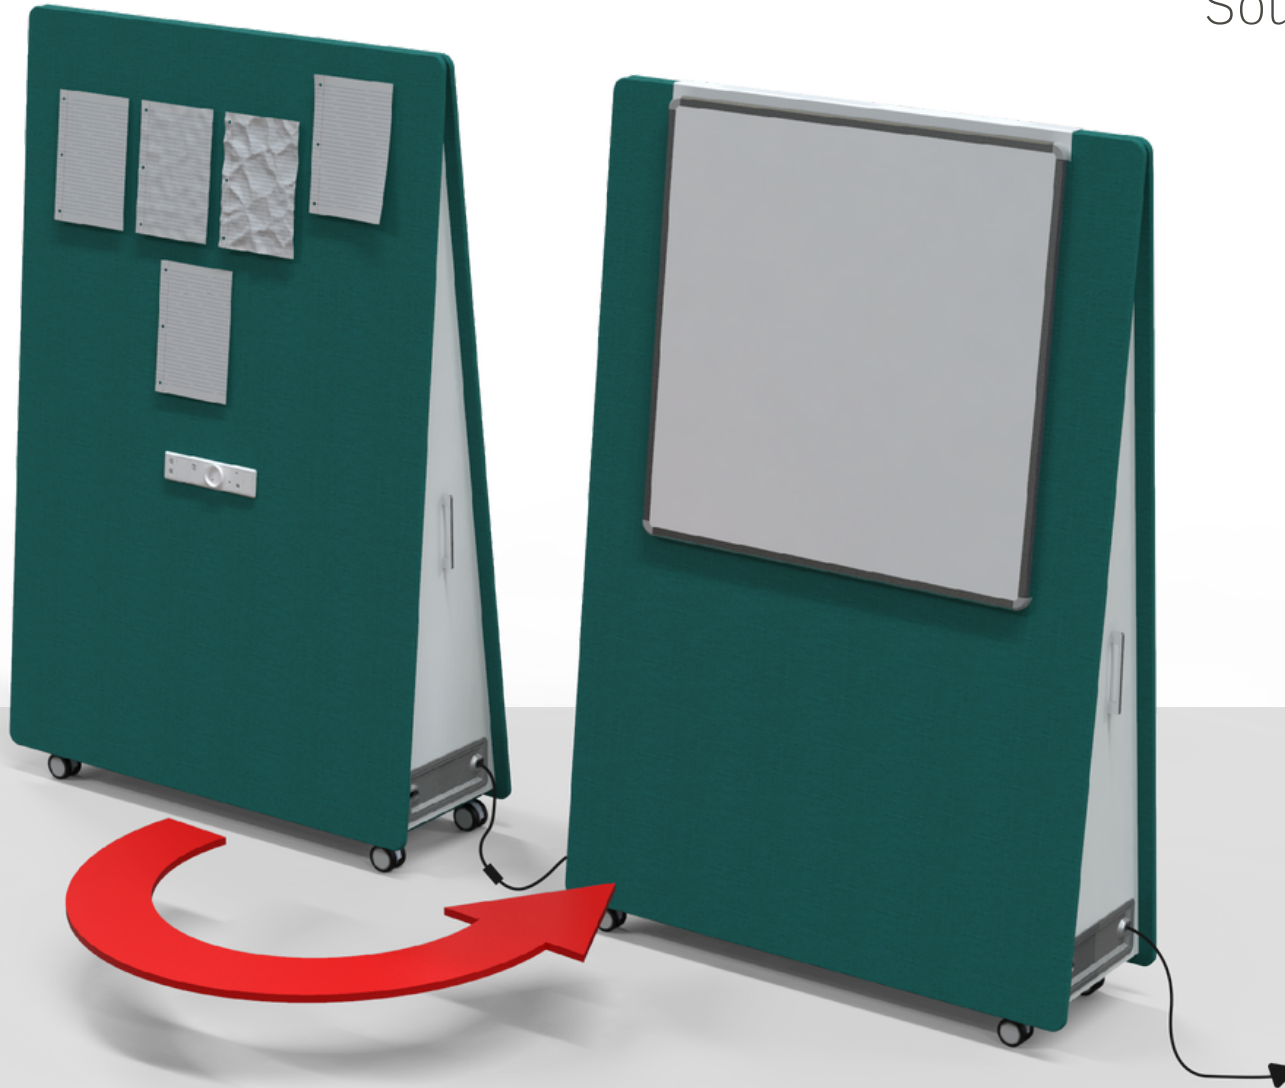

Pinboard Functionality

The SoundTrap Mobile Acoustic Dividers come standard with pinboard functionality on both sides. This allows the use of a pin board on one side, and a whiteboard on the reverse

06

Run power cables from the power source through non-powered SoundTraps to those fitted with plug sets

07

Whiteboard Trolley

Available with a trolley to stack, transport and store SoundTrap's removable whiteboards when not in use.
